
all ground (50 replicates)
within 500 m (50 replicates)
all ground, truly water-related (50 replicates)
500 m, truly water-related (50 replicates)
effects that remove flooding, all ground and 500 m (50 replicates)
all ground, effect differing between settlements (50 replicates)
all ground, flips correlated within each settlement's ground (20 replicates)
all ground, models refitted (3 replicates)
margin (R = 0.05)
observed upper limit, above the no-effect reference
